GiTogether 2025

We are excited to propose a unique non-technical event, “ **GiTogether** ”, organized by the GitHub Campus Club, open to 1st and 2nd year CSE students, scheduled for **12th & 13th November 2025 (Wednesday and Thursday)**. This event challenges participants’ creativity, quick thinking, and teamwork through fun and interactive rounds from testing senses and spotting lies to completing quirky tasks . It’s a blend of humor, strategy, and collaboration for an unforgettable experience.

Event Details and Structure

Event Date and Time: 12th & 13th November 2025 from 4:30 pm to 6:00 pm

Expected Participants: 100

Team Composition: Teams of three participants.

Prize pool: Rs 3,000

This dynamic event brings together three entertaining and interactive rounds designed to challenge participants in different ways. It begins with Sensory Showdown, where players rely on their senses to solve mysterious tasks, followed by Box of Lies, a test of deception and deduction. Next comes Bingo Bash, filled with quirky challenges that blend luck and creativity. Together, these rounds create a fun-filled experience that celebrates creativity, teamwork, and quick thinking.

Round 1: Sensory Showdown

In this round, each team member is assigned a specific sense — **touch, taste, or smell**. Blindfolded and relying solely on their assigned sense, players must identify a series of mystery items placed before them. With sight taken out of the equation, participants must trust their instincts and sensory perception to earn points for their team. This round puts focus, intuition, and sensory awareness to the ultimate test!

Round 2: Box Of Lies

In this round, each team receives a unique **AI-generated image** that may look bizarre, funny, or completely random. One member describes the image to the opposing team, but here's the twist, they can choose to **describe it truthfully or make up a lie**. The opposing team must then decide whether the description is real or fabricated. This round tests creativity, bluffing skills, and the ability to spot deception while keeping everyone guessing and laughing!

Round 3: Bingo Bash

Bingo Bash is an exciting and interactive team activity designed to bring fun, energy, and teamwork into play. Each team is provided with a Bingo sheet containing numbered squares. The game begins as teams take turns rolling a die, and the number they roll determines the task they must complete. Every number on the sheet corresponds to a unique task or challenge that tests creativity, teamwork, or quick thinking. Once a team successfully completes the assigned task, they get to cross out that number on their Bingo sheet. The competition continues with teams rolling, completing, and marking off numbers, all while cheering each other on. The ultimate goal is to be the first team to complete a full row, column, or diagonal — achieving the classic Bingo pattern and claiming victory in the lively **Bingo Bash**!

Round 4: Funny Commercials

Funny Commercials is a lighthearted and wildly entertaining game where creativity meets comedy. Each team is given a random brand or product and just a few minutes to come up with a hilarious commercial or pitch. The challenge lies in turning something ordinary or completely absurd into the next big sensation through imagination, humor, and quick thinking. As teams take the stage, they act, improvise, and sell their product with dramatic flair, catchy taglines, and ridiculous enthusiasm. The result is a burst of laughter, clever creativity, and unforgettable moments as everyone watches ordinary objects transformed into must-have items through sheer comedic genius. **This round is an optional segment** that may or may not be conducted, depending on the overall time available during the event.

Expected Outcomes

The event “**GiTogether 2025**” is designed to be an exciting and enriching experience that promotes teamwork, creativity, and critical thinking among participants. Through its four engaging rounds — **Sensory Showdown**, **Box of Lies**, **Bingo Bash**, and **Funny Commercials** — the event encourages participants to step out of their comfort zones, think innovatively, and work collaboratively toward shared goals. Each round has been thoughtfully crafted to test different skill sets: from keen observation and focus in *Sensory Showdown*, to quick wit and bluffing in *Box of Lies*, to teamwork and energy in *Bingo Bash*, and finally, creativity and presentation skills in *Funny Commercials*.

Beyond entertainment, **GiTogether 2025** aims to strengthen participants’ communication, problem-solving, and interpersonal skills in a fun and interactive way. The event fosters a sense of unity and healthy competition, helping participants build confidence while learning to appreciate the value of teamwork.

We sincerely request your support and approval for this proposal. Your endorsement will play a vital role in making **GiTogether 2025** a successful, memorable, and impactful event for all involved. Thank you for your consideration, and we look forward to your positive response and encouragement in bringing this initiative to life.
